Who We Are

About Montane

Montane Protective Security is an independent consultancy providing threat-informed security, risk management and resilience solutions.

We help organisations understand threats, manage risk and build resilience across people, information, assets and operations.

Our experience spans government, critical infrastructure, defence, higher education, health, financial services and commercial sectors.

Our Approach

UNDERSTAND THE THREAT

Identify credible threats, assess vulnerabilities and make informed security decisions.

MANAGE THE RISK

Implement practical and proportionate controls that protect people, information, assets and operations.

BUILD RESILIENCE

Prepare, respond, recover and adapt in an increasingly complex threat environment.
