BUSINESS OVERVIEW

MONTANE
Protective Security

Business Overview

Montane Protective Security (MPS) is a trusted and energetic professional services consultancy with demonstrated experience across all aspects of protective security; both in Australia and around the world.

Our highly skilled and security cleared staff have proven backgrounds in specialist security organisations and are adept at operating within discreet operational environments.

Through innovative and globally recognised service offerings tailored to meet the unique challenges faced by our clients we can equip businesses of all sizes with practical, scalable and cost-effective security solutions across all levels of operations.

MPS understands today's constantly evolving physical, human, and technical threats; and what it takes to protect you, your staff, clients and operations against malicious activity.

With substantial past performance, client satisfaction and a flexible and thorough approach to solutions development, Montane Protective Security and our likeminded partners will ensure that all client security requirements are effectively completed; on time and within budget.

Montane:

The vegetated, green belt prior to alpine and snow zones on mountains.

MPS

Our Services

Protective Security Risk Assessments

Detailed, client specific assessments of physical work spaces, structures and facilities to analyse security risks and recommend remediation strategies based on each client's business operations.

Cyber and Information Security

Tailored cyber and information security and resilience assessments to determine a business's security posture and ability to counter the effects of a successful data breach.

Personal Security and Safety

Protect you and your family , executives, staff, and business from harm ;whether living, operating or travelling in Australia or overseas.

Supply Chain Risk Assessments

Now more than ever, security of the supply chain is a key a concern of transport, storage, data centre, logistics and manufacturing companies.

Crowded Places Assessments

Recent attacks highlight the need to reduce the risk of intentionally hostile acts within areas of mass gathering.

Business Continuity Management

Business continuity is defined as the capability of and organisation to continue delivery of products or services at acceptable predefined levels following a disruptive incident.

Our Mission

To develop and deliver professional, focused and innovative protective security services and solutions; providing our clients with a safe and secure operating environment.
